

Laura Benavente

SENIOR PRODUCT DESIGNER | AI PRODUCT DESIGN & COMPLEX B2B SAAS

I combine product strategy, UX, systems thinking and AI to turn complex workflows into clear, scalable experiences.

Education

UNIVERSITAT OBERTA DE CATALUNYA
Bachelor's Degree in Digital Design and Creation

NEOLAND
Bootcamp UX/UI Design

AULA CREATIVA
Master Design and front end development

Skills

Product Strategy & Systems Thinking
B2B SaaS Product Design
UX Research & Usability Testing
UI & Visual Design
Design Systems & Scalable Components
Prototyping & Validation
AI-assisted Product Design
AI-powered Product Experiences
Accessibility & Inclusive Design
Cross-functional Collaboration

Tools

FIGMA AI
ADOBE CREATIVE SUITE
CLAUDE CODE
GITHUB COPILOT
VS CODE
PENDO
FRAMER

Technical Skills

HTML , CSS
JAVASCRIPT
TYPESCRIPT
DESIGN SYSTEMS
PROTOTYPING

Languages

SPANISH NATIVE
ENGLISH C1 - C2

Experience

WOLTERS KLUWER
Senior Product Designer
Jun 2021 - Jul 2026 - Internacional - Remote

Designed and shipped **complex B2B SaaS** products for accounting and professional-services firms, translating business logic, regulatory requirements and technical constraints into scalable product experiences across international markets.

- Owned **end-to-end product design** from discovery, customer research and problem definition through interaction design, prototyping, validation, design delivery and implementation.
- Designed and shipped **AI-powered product experiences**, including an AI agent integrated into the product ecosystem to support users within their existing workflows.
- Translated **complex business rules**, operational dependencies, regional requirements and technical constraints into clear and scalable user experiences.
- Contributed to the evolution of a **global Design System**, defining reusable interaction patterns and improving consistency and accessibility across products.
- Partnered closely with **Product, Engineering, Architecture, Business Experts** and international stakeholders to define product direction, resolve cross-product dependencies and deliver solutions into production.
- Used **research, prototyping and usability validation** to de-risk product decisions and align stakeholders across different markets.
- Applied **AI-assisted design** and coding workflows to accelerate exploration, prototyping, design delivery and collaboration with Engineering.

FROG
Senior Product Designer
Feb 2019 - Jun 2021 - Madrid

Designed **multi-device digital products** and connected experiences across Telefónica's mobile, TV and smart-home ecosystem, working across iOS, Android, TV and web-based operational tools.

- Led end-to-end design delivery, from IA and interaction design to high-fidelity UI, responsive layouts, prototypes and implementation-ready specs.
- Designed web-based operational tools, including a CMS and partner dashboard for Living Apps.
- Collaborated with Product, Engineering, Research and Business to balance user needs, business goals and technical feasibility.

FREELANCE EXPERIENCE
Front-end and Graphic Design

Designed and built responsive digital experiences, combining UX/UI design, front-end development and implementation to take concepts from idea to working product.
